

TAWESHAL DEV THAKUR

ASSOCIATE PROJECT MANAGER

Kathmandu, Nepal | +977 9823348580 | thakur2sl.py@gmail.com
linkedin.com/in/taweshal-dev-thakur-656a8a273 | github.com/taweshaldev99

PROFESSIONAL SUMMARY

Associate Project Manager with hands-on experience delivering software projects in an Agile/Scrum environment — sprint planning, daily standups, and retrospectives — using Jira to track tasks, milestones, and deliverables. Progressed from Associate Project Manager Intern to full-time Jr. QA Developer at Yoddha Lab within a 90-day program, coordinating a cross-functional team of up to 10 across development, product, and operations on the Nepal HRMS platform. Pairs project coordination with QA rigor to keep delivery on schedule and releases defect-free.

CORE SKILLS

Project Management: Agile, Scrum, Sprint Planning, Daily Standups, Sprint Retrospectives, Backlog Management, Project Planning, Milestone & Deliverable Tracking, Risk & Issue Tracking, Status Reporting, Stakeholder Communication, Project Documentation, SDLC

Tools: Jira, CRM Platforms, HRM/HRMS Platforms, Git, GitHub

Quality Assurance: Manual Testing, Functional Testing, Regression Testing, Usability Testing, Test Scenario Design, Test Case Execution, Bug Reporting, Defect Tracking, Release Validation

Technical: Python, SQL, PostgreSQL, Pandas, NumPy, ETL Pipelines, Data Analysis

Core: Cross-Functional Collaboration, Team Communication, Time Management

PROFESSIONAL EXPERIENCE

Jr. QA Developer

Yoddha Lab Pvt. Ltd. | Full-Time

Jul 2026 – Present

Kathmandu, Nepal

- Promoted from intern to a full-time role after a 90-day program, recognized for contribution to the Nepal HRMS product.
- Own functional, regression, and usability testing for the Nepal HRMS platform; validate fixes and confirm release readiness before every deployment.
- Partner with developers and product owners across sprint ceremonies to triage, prioritize, and track defects to closure in Jira.
- Drive improvements to test processes, documentation, and quality standards across the product team.

Associate Project Manager Intern

Yoddha Lab Pvt. Ltd. | 90-day program; progressed to QA Intern, Nepal HRMS

Mar 2026 – Jul 2026

Kathmandu, Nepal

- Coordinated project planning, tracking, and execution across a cross-functional team of up to 10 spanning development, product, and operations.
- Managed tasks, sprints, and deliverables in Jira, tracking progress against milestones and keeping board status accurate.
- Contributed to sprint planning, daily standups, and retrospectives, surfacing blockers early to keep deliverables on schedule.
- Prepared project status updates and maintained documentation, giving stakeholders a single source of truth on progress and risks.
- Transitioned into QA Intern for the Nepal HRMS launch: authored test scenarios from product requirements, executed functional and regression testing, and tracked bugs to resolution with developers.

PROJECTS

Kathmandu Bus Stops ETL

github.com/taweshaldev99/kathmandu-bus-stops-etl

2025

- Scoped, planned, and delivered an end-to-end ETL pipeline processing Kathmandu's public bus stop and route data.
- Cleaned and transformed raw datasets with Python (Pandas, NumPy), designed a normalized PostgreSQL schema, and documented the workflow on GitHub.

EDUCATION

Bachelor of Information Technology (BIT)

Purbanchal University

Expected 2026

Kathmandu, Nepal

CERTIFICATIONS & TRAINING

Internship Completion & Employment Certificate — Yoddha Lab Pvt. Ltd. (2026) | Python for Beginners — Udemy | Data Analysis with Python — KIST

KEY ACHIEVEMENTS

- Earned a full-time offer at the end of a 90-day internship, awarded on performance.
- Participated in KIST Hackathon 2025, delivering a working software solution with a team under a fixed time constraint.
